

Behold, The Ultimate Side Dish Planner!

The purpose of this spreadsheet is to help you figure out what side dishes to plan/prepare for each main dish you put on your menu plan.

This spreadsheet is divided into the following main dish categories:

Pasta
Meals over Rice or Noodles (Mostly Asian- and Indian-Inspired)
Wraps/Sandwiches/Burritos/Mexican Inspired
Meat/Seafood Entrée
Main Dish Salad

You'll notice that I didn't include a category for soups. That's because 99% of the time, I serve soup with rolls, crackers and sliced cheese. Hardly worth its own category.

Each main dish category has a list of stellar side dishes that would pair well with any of the main dish options. *It's like a mix-and-match menu plan.*

This spreadsheet is a starting point that will allow you to jump on board the menu planning wagon with a whole arsenal of side dishes to use for your menus! If you don't see a specific main dish recipe listed, you can easily use the side dishes in the pasta category, for instance, with other pasta recipes you love that may not be included specifically here.

P.S. All the recipe links are clickable!

Enjoy!

Pasta

If You Make This for Dinner...

Baked Manicotti	Creamy Orzo with Chicken, Peppers and Mushrooms	Skillet Baked Spaghetti
